

# ***Do You Manufacture Lithium-Ion Batteries? Do You Develop and Design Consumer Products Using Lithium Ion Batteries for the U.S. Market?***

## **Attend a Free Lithium-Ion Batteries in Consumer Products Safety Training for Designers and Manufacturers International Seminar**

**Presented by the U.S. Consumer Product Safety Commission in cooperation  
with the China Council for the Promotion of International Trade,  
Underwriters Laboratories, and International Federation of Inspection  
Agencies**

**May 16, 2017  
8:00am – 5:05pm  
Shenzhen**

**[JW Marriott Hotel Shenzhen Bao'an](http://jwmarriottshenzhenbaoan.com)  
[jwmarriottshenzhenbaoan.com](http://jwmarriottshenzhenbaoan.com)  
[No.8 Baoxing Road, Bao'an District, Shenzhen 518101](#)**

**Register to attend:**

Ms. Liu Xiangning, [liuxiangning@ccpit.org](mailto:liuxiangning@ccpit.org)

What are the industry consensus standards? What factors of safety are critical for innovative design? What are the emerging and ongoing hazards associated with devices powered by high energy density batteries, as well as system safety features that ensure high energy density batteries, battery packs, safety circuits end products and chargers all work together to achieve safe operation for the intended application?

Get answers to these and other important questions at this seminar presented by product safety officials from the United States Consumer Product Safety Commission, UL, and IFIA.

Training is **FREE**, but registration is required due to space limitations. Please note that priority will be given to manufacturers and designers.

English-Chinese simultaneous interpretation provided.
